EDUCATION

Degree	Specialization	Institute	Year	CGPA
Diploma	Computer Science & Engineering	Aditya College of Engineering	2023-Present	7.6

PROJECTS

Quiz Game

- Developed a subject-based quiz application with three difficulty levels, each containing four questions worth 10 points each.
- Technologies Used:** HTML, CSS, JavaScript, and ChatGPT for enhanced functionality and user engagement.

Find the Colour Game

- Designed a fast-paced game where players identify the color of the text rather than the word itself.
- The game runs for 30 seconds, awarding 1 point for each correct answer.
- Technologies Used:** HTML, CSS, JavaScript, and ChatGPT for a unique gameplay experience.

ACHIEVEMENTS

- Secured **4th place** in a hackathon among **120+ teams** by independently completing the entire project, showcasing exceptional technical skills and self-reliance.

TECHNICAL SKILLS

- Programming Languages:** C, Java, HTML, CSS, JavaScript
- Tools:** VS Code
- Version Control:** GitHub
